

Bengal Fact Sheet

Shell Midstream Partners

Bengal is a refined products pipeline system connecting four refineries in the St. Charles, Norco, Garyville, and Convent areas of Louisiana with storage tankage in Baton Rouge, Louisiana

- Two primary pipelines comprise the 158-mile system
- Approximately four million bbls of tank capacity in Baton Rouge, LA

Connects with the Plantation and Colonial Pipelines to provide major market outlets to the Southeast and East Coast

Colonial is the system operator and operates Bengal's tankage; SPLC operates [Bengal's Pipelines](#)
